Completion at £20 million state-of-the-art health and care centre

Morgan Sindall Construction has handed over a new £20 million state-of-the-art health and care centre in Glasgow city centre.

Located on Garscube Road, Woodside Health & Care Centre has been delivered in partnership with hub West Scotland, a private sector development partner, working with NHS Greater Glasgow and Clyde (NHSGGC) Board, Glasgow City Health and Social Care Partnership (HSCP) and Glasgow City Council.

Set over three and a half storeys, the 6,730 square metre development is a significant investment in the health and wellbeing of the local community, bringing together multiple clinicians under one roof.

A broad range of services will be provided from the new centre, including: eight GP practices, children's services, district nursing, health visiting, alcohol and drug recovery services, a day care centre for older people, a dental practice, as well as physiotherapy, podiatry, and sexual health services.
