M5 Oldbury Viaduct wins Green Apple Award

BMV, a BAM Nuttall, Morgan Sindall Infrastructure and VolkerFitzpatrick joint venture is celebrating as the M5 Oldbury Viaduct Major Renewal Scheme wins a 2019 Green Apple Award, for environmental best practice.

The joint venture is currently working on behalf of Highways England to carry out major concrete repair and waterproofing work on the M5 Oldbury Viaduct, between junctions one and two.

The award acknowledges the team's exemplar process and practices, particularly around water management and mitigating the environmental impact of hydrodemolition works.

The project has received a number of other accolades for its health and safety initiatives, including an 'Excellence in Occupational Health and Wellbeing Award' at the 2019 Highways England Awards and winning 'Best Place to Work' at the Construction News Talent Awards last year.

The award will be presented at a ceremony held in the Houses of Parliament, on 25 November.
