Morgan Sindall Construction appointed to all lots of Pagabo's major works framework

Morgan Sindall Construction has been re-appointed to Pagabo's £10 billion, six-year Major Works Framework, securing a place on all lots and regions for projects throughout the UK.

The framework, which launches in April 2020, is the second iteration of the Major Works contract and will see contractors deliver projects starting at £5 million. The framework - which is open to all public and private sector organisations - is split into three project value bands across seven UK regions and includes a core and reserve list of contractors.

PAGABO

Morgan Sindall Construction has been appointed to the framework, and will work with Pagabo to deliver projects across a variety of industries.

Through its existing place on the framework, Morgan Sindall Construction is currently delivering landmark developments including Liverpool John Moores University's Copperas Hill development and the Oak Tree Gardens Scheme in St Albans.

Rob Hall, Framework Manager for Morgan Sindall Construction said: "Pagabo and Morgan Sindall Construction share a commitment to developing an ecosystem that supports the delivery of construction projects in a manner that has the wellbeing of society at the heart of its aims. Our work over the next four years will be underpinned by a continued commitment to the maximising of social value on all our projects, underpinned by SME engagement and ensuring the latest technology is used to support these aims.

"This is excellent news to start the year with, and we're very excited about what can be achieved through our re-appointment to the Major Works Framework." Morgan Sindall Construction is currently on numerous Pagabo frameworks, and is the sole national partner on Pagabo's Medium Works framework.
