

Morgan Sindall Group plc and its subsidiary companies (the Group)

Covid-19 Risk Assessment Statement

The health, safety and wellbeing of our people, our partners and the public remain our overriding priority. Where safe to operate, activity across the Group has continued with strict adherence to legal requirements and guidance issued by the UK government, devolved administrations and public health authorities across the UK.

Our sites are all operating in accordance with the latest **Site Operating Procedures** issued on 14 April 2020 by the Construction Leadership Council.

Across the Group we have c70 offices and over 360 site locations. We have undertaken COVID-19 risk assessments for operating offices and sites in accordance with the government's **'Working safely during COVID-19'** guidance for offices and contact centres and construction and other outdoor work, published on 11 May 2020.

Our office and site locations will fully comply with our suitable and sufficient risk assessments ensuring the government's five steps to safer working are applied.

The **'Staying COVID-19 Secure in 2020'** notice will be displayed in each location once the risk assessment findings and all five steps have been implemented.

Due to the range and volume of risk assessments required for our workplaces it is not practical to publish specific risk assessments.
