

We hope our graduate and undergraduate pages answer most of your questions, but here's a collection of other information you might find useful based on past questions from candidates.

FAQs

What degrees do you look for?

Construction Management, Commercial Management, Quantity Surveying, Civil Engineering, Mechanical Engineering, Electrical Engineering, Chemical Engineering, Building Services Engineering and Architectural Engineering and Design Management.

Do you offer support for me to complete professional registration?

Yes. We actively encourage our graduates to register with the relevant professional scheme, and provide financial and mentoring support.

What's the possibility of working near where I live?

We have many projects across the UK so it's likely there will be a location to suit you, although in some cases you may have to relocate.

What benefits do you offer?

We offer a competitive salary, bonus, company car, 26 days holiday with the option to purchase an additional five days, as well as a range of flexible working options.

I'm a mature student, can I apply?

We welcome anyone who has recently graduated with a relevant degree.

I'm currently on another graduate scheme, can I apply?

Depending on the support you have already received and how recently you have graduated, yes.

I'm a non-UK citizen, can I apply?

Yes, as long as you have valid 'right to work' documentation. We do not offer certificates of sponsorship for Graduate positions.
